7. **Correct answers:**
Tesla is already producing Level 2 to Level 3 autonomous cars.
Tesla claims it will release a Level 5 car in the next three years.
8. a) The capabilities of autonomous driving

Reading Comprehension

1. They may increase road safety, provide mobility for people who cannot drive, or reduce pollution.
2. Because self-driving systems can still make serious errors, such as misclassifying objects or failing to detect hazards.
3. Local, geofenced taxi services rather than fully autonomous private cars.

Idioms

“Muddy the water” = make something confusing or unclear

Used when describing how certain companies communicate about autonomous driving.

“For all intents and purposes” = practically speaking; in almost every way

Used when the man explains how Level 3 “feels” like self-driving but still requires attention.

“Outlandish” = extremely unrealistic or exaggerated

Used regarding claims about future fully autonomous cars.
