Checking the Weather

Emma was planning a weekend trip to the beach with her friends. On Friday morning, she woke up early and looked out the window. The sky was gray, and the air felt heavy. She wasn't sure if it was going to rain, so she decided to check the weather forecast on her phone.

The app showed: *"Saturday: sunny in the morning, cloudy in the afternoon. Sunday: heavy rain with thunderstorms."*

Emma sighed. She called her friend Lucas and said, "I think we should go on Saturday morning and come back before evening. On Sunday, it will rain all day."

Lucas agreed. "That sounds like a good idea. Let's take a small picnic and enjoy the sunshine while it lasts."

The next day, Emma packed sunscreen, snacks, and a towel. The morning was bright and warm, just like the forecast had said. By the time the sky turned cloudy, they were already packing up to go home.

On Sunday, heavy rain poured down all day. Emma smiled, thinking that checking the weather had saved their trip.
