#23****Teacher's Guide**

SCRIPT: A SOLUTION

Thiago: Shaun, do you have a minute?

Shaun: For you Thiago, I've got two. Now, how are you doing with that report?

Thiago: I'm still having some problems, I'm afraid.

Shaun: Right. You realize I have a meeting with the directors tomorrow afternoon. I wanted it done by then.

Thiago: I'm really sorry. I'm so busy with other projects at the moment, and Accounts didn't get back to me with the figures I need.

Shaun: Okay, let me deal with Accounts, and I'll see if I can get one of the other trainees to share some of your workload. Just for a few days. Does that help?

Thiago: Yes, it helps a lot.

Shaun: Now, what else can we do to get this report finished? What if I bring in Jasmine to help you out?

Thiago: No, no, I can manage.

Shaun: Look, we don't have much time. Let's speed things up. How about asking Jasmine to help you with some of the figures?

Thiago: Yes, okay.

Shaun: Good. I'll give you three more days, but no more. Don't let me down. Of course, this doesn't help me with the directors' meeting tomorrow.

Thiago: Why don't I just write an executive summary of the main points? You can give them that.

Shaun: Alright. Yes. Good idea.

Audio Comprehension Questions:

1. He's still having some problems.
