## CONVERSATION

**Lucas:** Hey, Mariana! What happened?

**Mariana:** I got into a motorcycle accident last month. I spent a few days in the hospital.

**Lucas:** Oh no! How did it happen?

**Mariana:** A car ran a red light and hit me hard. I fell off my bike and hurt my left arm. They did an X-ray and found my arm

was broken, so now I have to wear a cast on it.

**Lucas:** That's rough.

**Mariana:** Yeah, it really threw me off — I didn't even realize what was going on at first.

**Lucas:** Gosh... so they took you straight to the hospital, right?

**Mariana:** Yeah.

**Lucas:** Did they give you anything for the pain?

**Mariana:** Yes, I got a pain shot and an IV. Been taking medicine for the pain.

**Lucas:** Did you need stitches?

**Mariana:** Yes, a few on my leg. They also put bandages on some cuts.

**Lucas:** I'm just glad you're okay. That must've been scary.

**Mariana:** Yeah, it was. I got the short end of the stick.

## VOCABULARY

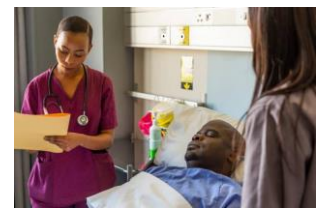

Get blood  
pressure checked

Take medicine

Get a shot

Be hospitalised

Wear a cast

Get an X-ray

Bandage

Be on IV

## Expressions
